

NPDES FORM 6100-28		UNITED STATES ENVIRONMENTAL PROTECTION AGENCY WASHINGTON, DC 20460 ANNUAL REPORT FOR STORMWATER DISCHARGES ASSOCIATED WITH INDUSTRIAL ACTIVITY UNDER THE NPDES MULTI-SECTOR GENERAL PERMIT	FORM Approved OMB No. 2040-0004
--------------------------	---	---	---------------------------------------

Permit Information

Report Year: 2020

Reporting Period: 1/1/2020 to 12/31/2020

NPDES ID: NHR053159

Facility Information

Facility Name: NYLON CORPORATION OF AMERICA

Facility Point of Contact

First NameMiddle InitialLast Name: SabreStrout

Phone: 603-627-5150Ext.: 318

Email: sstrout@nycoa.com

Facility Mailing Address

Address Line 1: 333 SUNDIAL AVENUE

Address Line 2:City: MANCHESTER

ZIP/Postal Code: 03103State: NH

County or Similar Division: Hillsborough

General Findings

Provide a summary of your past year's routine facility inspection documentation (see Part 3.1.2 of the permit). In addition, if you are an operator of an airport facility (Sector S) that is subject to the airport effluent limitations guidelines, and are complying with the MSGP Part 8.S.8.1 effluent limitation through the use of non-urea-containing deicers, provide a statement certifying that you do not use pavement deicers containing urea (e.g., "Urea was not used at [name of airport] for pavement deicing in the past year and will also not be used in 2015." (Note: Operators of airport facilities that are complying with Part 8.S.8.1 by meeting the numeric effluent limitation for ammonia do not need to include this statement.)

All inspections were completed as required by the permit. No evidence of storm water pollution was seen.

Provide a summary of your past year's quarterly visual assessment documentation (see Part 3.2.2 of the permit).

Visual assessments were collected for all four quarters and some solids such as sand sediment were noticed in the visual samples. In addition to heavy pollen seasons, sample will have floating or suspended pollen.

For any four-sample (minimum) average benchmark monitoring exceedance, if after reviewing the selection, design, installation, and implementation of your control measures and considering whether any modifications are necessary to meet the effluent limits in the permit, you determine that no further pollutant reductions are technologically available and economically practicable and achievable in light of best industry practice, provide your rationale for why you believe no further reductions are achievable (see Part 6.2.1.2 of the permit). Enter "NA" if not applicable.

Benchmark sampling for 2020 resulted in benchmark exceedances at all outfalls. Readings are consistent with levels recorded since 2010.  
NYCOA continues to evaluate the source of the Zinc present in stormwater samples.

Provide a summary of your past year's corrective action documentation (See Part 4.4 of the permit). (Note: If corrective action is not yet completed at the time of submission of this annual report, you must describe the status of any outstanding corrective action(s).) Also describe any incidents of noncompliance in the past year or currently ongoing, or if none, provide a statement that you are in compliance with the permit.

NYCOA will continue to monitor zinc concentrations in our storm water discharge due to the above benchmark levels. This corrective action will remain open for 2021 as further review is needed.

Certification Information

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I have no personal knowledge that the information submitted is other than true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
